AMBITION MECHANISM IN THE PARIS AGREEMENT

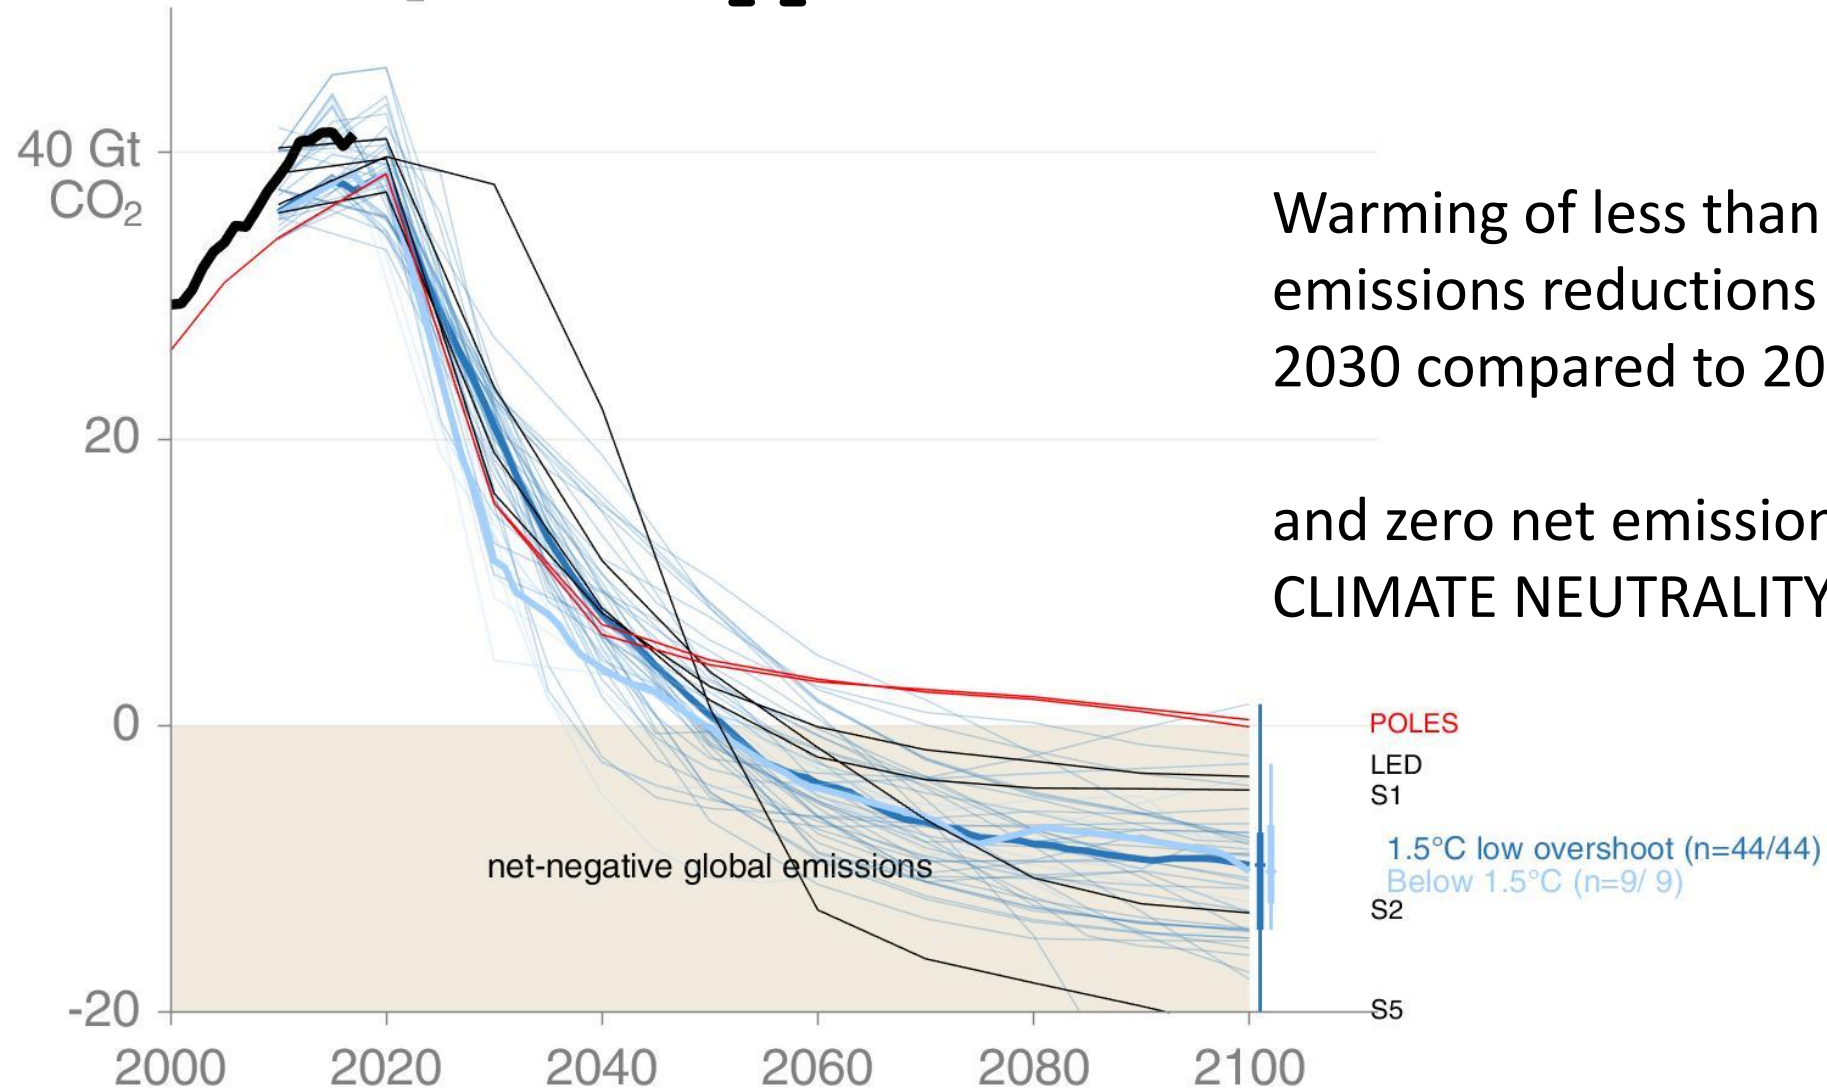

The Paris Agreement

- max. +2C
- limit the growth to +1.5C

Source: wri.org/publication/NDC-enhancement-by-2020

Science based approach: IPCC

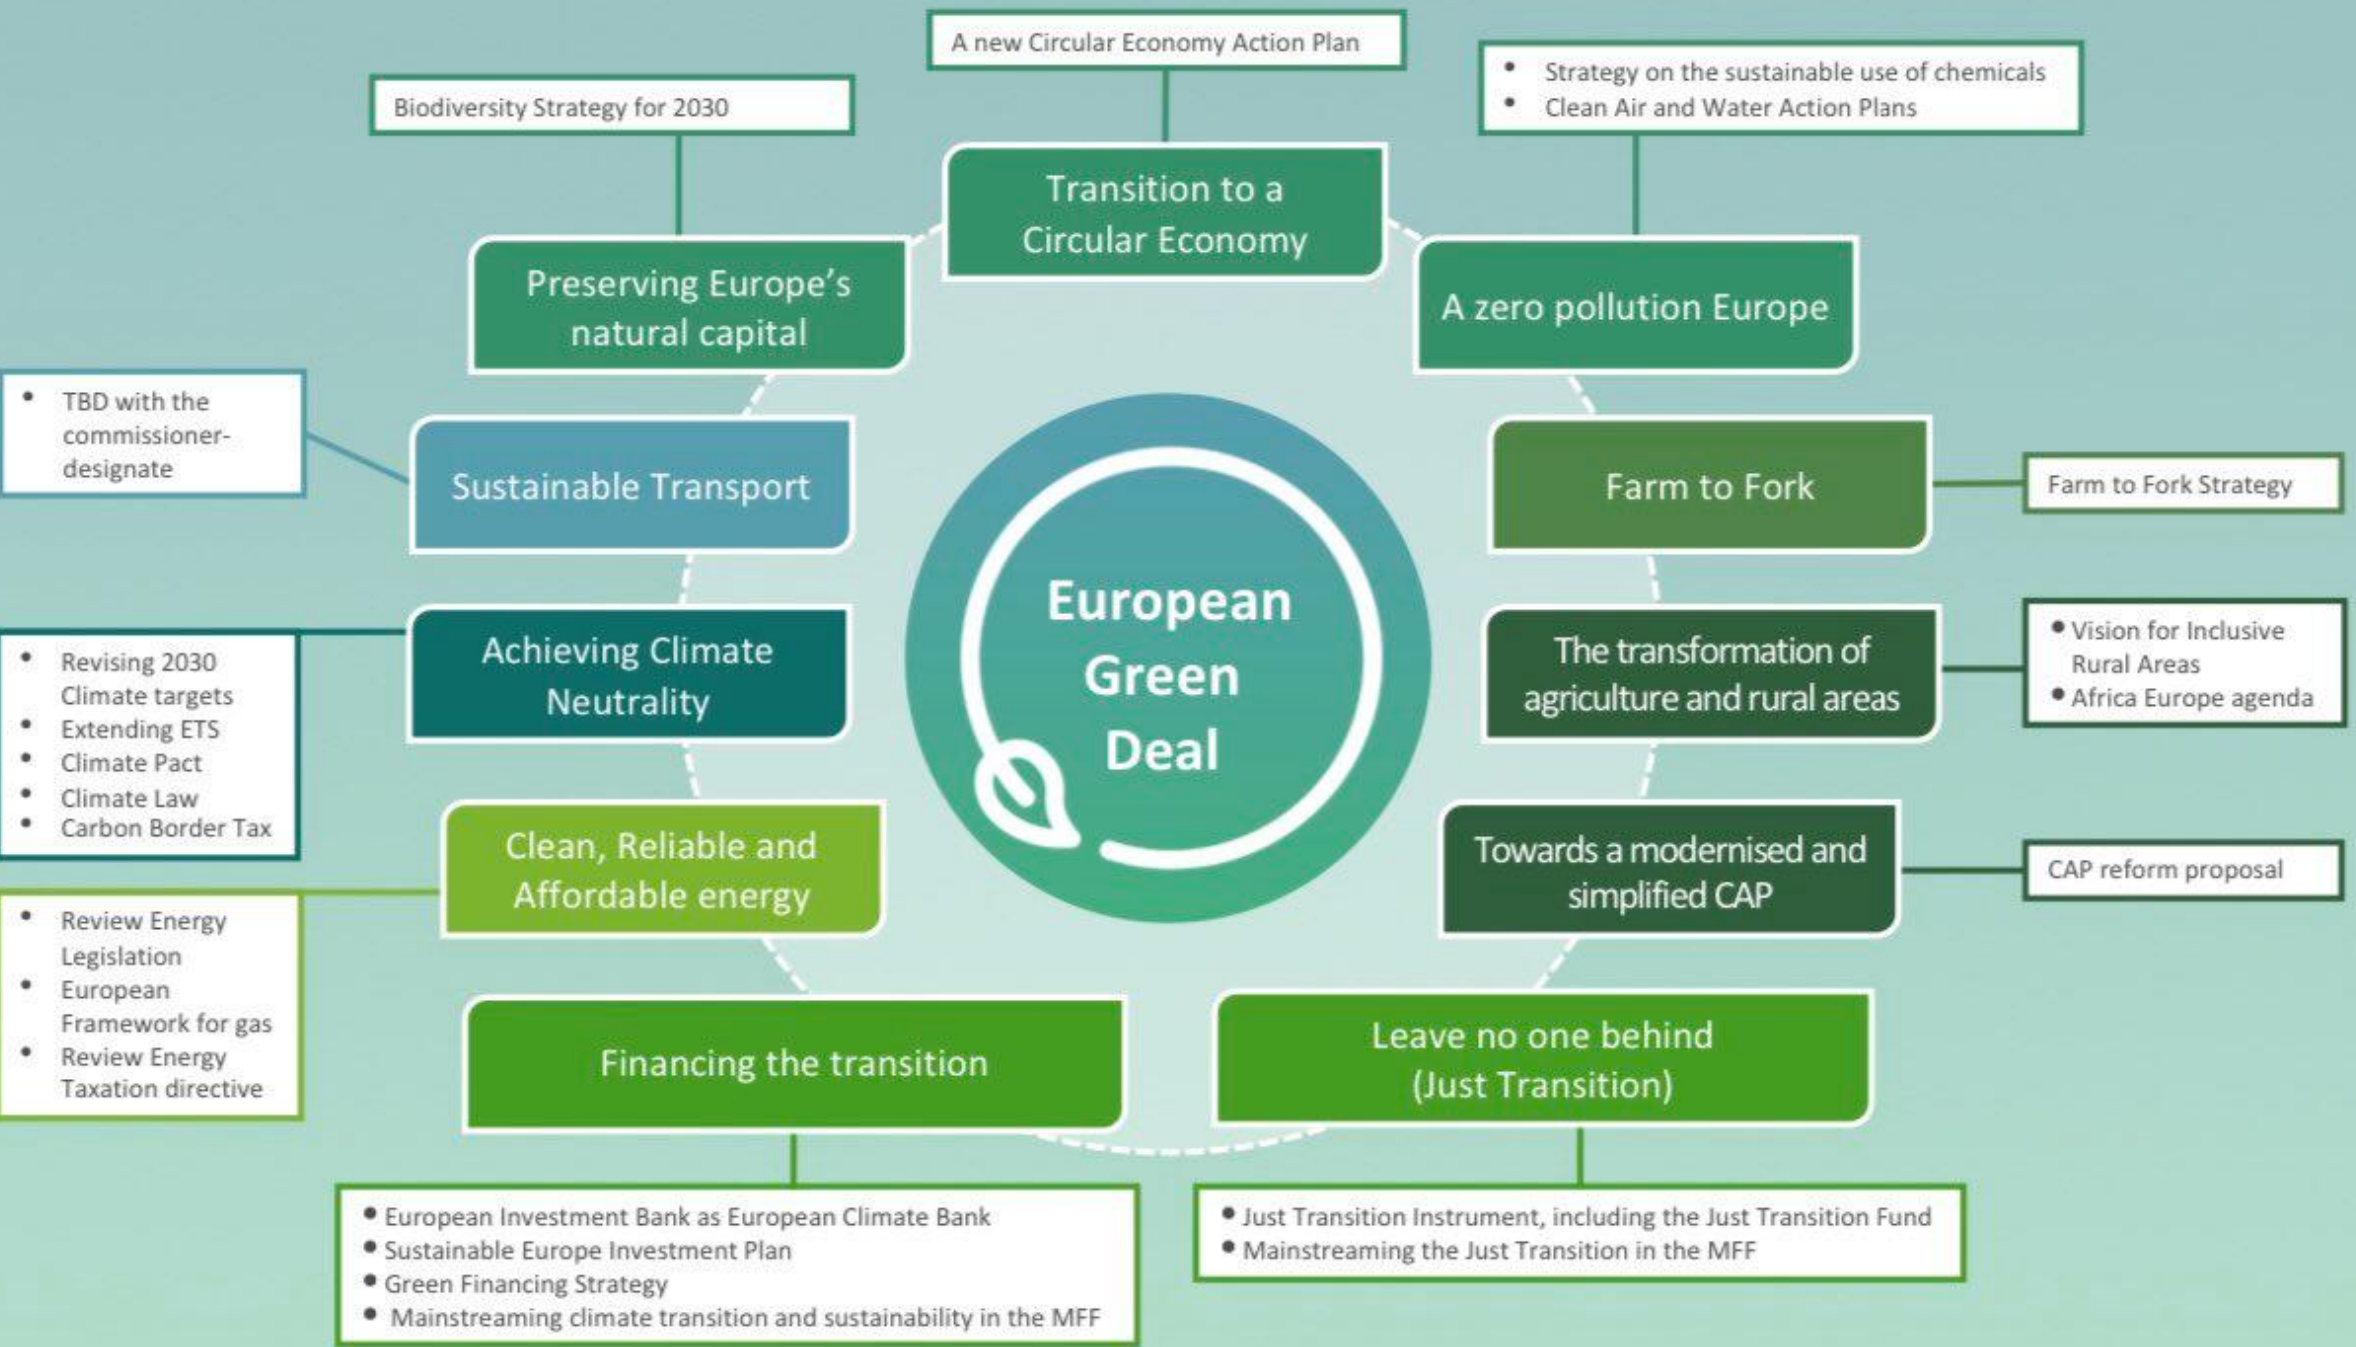

Warming of less than 1.5C requires emissions reductions of 30% by 2030 compared to 2010.

and zero net emissions by 2050:
CLIMATE NEUTRALITY

Youth Protests

The European Green Deal

- Climate change and environmental degradation are an existential threat to Europe and the world. To overcome these challenges, Europe needs a new growth strategy that will transform the Union into a modern, resource-efficient and competitive economy, where
 - there are no net emissions of greenhouse gases by 2050
 - economic growth is decoupled from resource use
 - no person and no place is left behind
- The European Green Deal is our plan to **make the EU's economy sustainable**. We can do this by turning climate and environmental challenges into opportunities, and making the transition just and inclusive for all.
