

Sustainable Tourism

Presented by
Anna Kopek

Respect4Tourism

- our mission

01

To promote an idea of sustainable development (e.g. in the field of sustainable tourism, hotel industry, mobility, meetings market)

02

To set up new directions in tourism, hotel and ecological education in Poland

03

To create social campaigns for the idea of sustainable development in tourism, hotel industry and on the meetings market

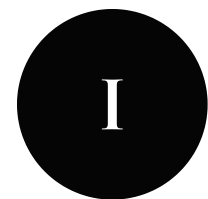

17 Sustainable Development

FIGHT TODAY
FOR A BETTER
MORROW

we cooperate

...

We give banners a second life
We create new work places

ZEROBAN

spółdzielnia socjalna

learn about our mission!

How our social cooperative work

STEPS BY STEPS

Action Step 1

we take unnecessary
banners and materials

Action Step 2

we design collections

Action Step 3

we sew products

Action Step 4

by buying our products

Action Step 5

you help in the
development of the
cooperative

Action Step 6

which, thanks to your help,
can employ people
excluded from the labor
market

corporate social responsibility

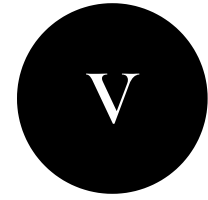

III

- support the local social economy

- help create new jobs

- promote shopping in the spirit of fair trade and zero waste

what we do?

for business

Gadgets for customers

Pencil cases, cosmetic bags,
packaging for cables and
headphones, for documents, etc.

SORTING

GRAPHICBAG

How do we sew?

Furniture made of upcycling.
Our trademark is furniture made from used ibc containers.

Our partner is 100cznia - a container village on the area of former Gdansk Shipyard. All the furniture you see there is created by us :)

We also make **furniture from used wood**: from pallets and other wooden waste.

We adapt the type of material to the functionality you need and/or the wood waste at your disposal.

Accessories made from waste
e.g. lamps made from used glass bottles, cushions made from used banners.

We are happy to put waste or unnecessary objects to creative use.

We see the potential in what others call rubbish.

Tell us about what you throw away, about the by-products of your production, and we will give you ideas for their use!

Interior design.

We offer space arrangement design along with furniture and accessories.

We specialise in lofts, post-industrial halls, but we also have experience in small business spaces.

We work with people with disabilities on a daily basis, thanks to this experience we are able to make comfortable furniture for people with special needs

Natural cosmetics

We are creating a manufactory of natural cosmetics - hydrolats, scrubs, soaps, plants oils.

The cosmetics are produced by people with intellectual disabilities.

Our products are seasonal - we start selling them in June, when all the plants necessary for production have matured!

The products we use come from small organic gardens in our area.
